

## WGIII AR5 Chapter 13 – Erratum to Figure 13.4

The Final Draft of the Working Group III (WGIII) contribution to the IPCC Fifth Assessment Report, Climate Change 2014: Mitigation of Climate Change was released to Governments on 17 December 2013. The version released on that date was subject to copy edit and final layout.

An error was identified by the Government of Brazil on 9 May 2014 in Figure 13.4 of Chapter 13 International Cooperation: Agreements and Instruments. The error has been handled in accordance with the 'IPCC Protocol for Addressing Errors in IPCC Assessment Reports, Synthesis Reports, Special Reports or Methodology Reports', Section 1. An erratum was constructed by the author team and was approved by the WGIII Bureau on 17 November 2014.

The corrected version of Figure 13.4 is now posted on [www.mitigation2014.org](http://www.mitigation2014.org). The WGIII report will be published by Cambridge University Press in winter 2014/2015.

**Page 42, line 1:** The figure erroneously showed Brazil under the category 'CDM Projects, Memorandum of Understanding under the Japanese Bilateral Mechanism.' Brazil is now correctly shown under the category 'Eligible for CDM projects.'
